About font:

Past work did by Alkfil for his QT port may help you in any way ?

http://qtamigaosnative.svn.sourceforg ... view=revision&revision=89

About crash at startup in TW after many test i might say that problems seems related to the coexistence of a previous session of MUI OWB opened, infact if, first i open TW and then --> MUI OWB there is no problem at startup

But if i start TW and MUI OWB is already opened in background i got a crash when i start TW ... so it seems a bad conflict between the 2 FontConfig used .. maybe ...
