Launch Odyssey on a local html file

Author: : JosDuchIt

Date: : 2017/1/19 9:07:18

URL:

It is possible to launch Odyssey from shell on a http URL
such as

> APPDIR:Odyssey http:someplace/mypreferredpage.html

or

>RUN "APPDIR:Odyssey http:mypreferredpage.html"

this is not possible for a local file

> APPDIR:Odyssey <file:///Myfullpath/mypreferredpage.html>

It would be nice if this was possible, could this be taken up?
