Again, a problem with the directory structure of the unofficial GCC 5.3.0 distro.

Files in

Quote:

adtools-os4-20151223-268/lib/gcc/

need to be copied to

Quote:

adtools-os4-20151223-268/lib/gcc/ppc-amigaos/5.3.0/newlib/lib

Thank you!
