Try/change

<MPLAYER>APPDIR:dh1:mediaspelare/emotion/Emotion

to (remove APPDIR:)

<MPLAYER>dh1:mediaspelare/emotion/Emotion

strange that ti works, but...

hu? i'd make it quite the other way around.

keep APPDIR: and remove the complete path:

<MPLAYER>APPDIR:Emotion

i mean - that what appdir: is good for...

regards...
