You could let me know the feature requests here

It would be helpful if TuneNet could support playing AAC files. Sometimes it's only possible to get music in that format, and converting to MP3 is really troublesome (even using Windows)... never mind the potential reduction in sound quality.

AAC is getting more common, and now there seem to be a (IMHO misplaced) suggestion that MP3 should/will be scrapped (esp. now that it's no-longer licensable) :

<http://www.bbc.co.uk/newsbeat/article ... ets-look-back-at-its-life>

Some radio stations also only use AAC, rather than MP3.

too (but file them for recording)

I haven't read this 😊
