SMTube 17.5 available on [OS4Depot](#) and AmiUpdate.

18/01/09 : port of the latest 17.5.0 svn8595

*** YouTube no more allow to don't use HTTPS protocol.**

In previous versions, YT_DISCARD_HTTPS define was used. It doesn't work anymore.

=> with this version, **SMTube doesn't work anymore with Emotion** (at least with v1.1) but **it works with recent MickJT-MPlayer** (tested with v1.0.1).

Therefore, **don't forget to modify your ENVARC:SMTube.ini if you used Emotion**
