Yeah, right :) Who will ask bigfoot, and why you think he will give anything to anyone ? I am sure he will share nothing, and i for sure will not be person crying for sources. And 1.24 make no sense in general, its the same as 1.23 years old.

As for jit version, i not sure it worth of it. As i read on morphzone its more buggy than non jit one, and i cant imagine anyone can deal with all that beast alone, and seeing how not fast it develops, i doubt jit version it will be finished to the bug-free state.
