Thanks.

@All

SDL 1.2.15 RC 1 is released: <https://github.com/AmigaPorts/SDL/releases/tag/v1.2.15-rc1-amigaos4>

It comes with 2 test programs: "testver" to verify the installation, and "testgl" to see something on the screen.

For those who want to see some serial debug, there are libSDL_debug.a and libSDL-1.2_debug.so.
