URL:

Just copied from a Facebook post:

Power PC based Genesi Pegasos II

complete documentation and Schematics , and PowerPC kernel documentation.

PPC Kernel documentation - 40 pages

Firmware - 12 pages

Setup - 16 pages

Boot - 8 pages

Upgrade Restore - 16 pages

MANUAL - 13 pages

<https://mega.nz/#F!Xg5i3Kob!48VM9WCZsVu4dFudLVJiPQ>

Perhaps having a public documentation for the firmware can now be usefull to add support for the newer graphics card ?
