No I am not a betatester, but I have talked to a betatester for classic amigas! Read an earlier thread about P96 and AmigaOS4 (under AmigaClassic i think) there is a summary of what the betatester told me.

Bvision, will be supported by AOS4 in native mode, but it is not finished yet.

P96 and Elbox will be emulated.

Bvision doesn't work very well, p96 does. He told me if he had to choose between those two, he would go for Voodoo and P96
