Cinnamon Writer 0.69 IV released

Author: : desler

Date: : 2010/2/4 10:01:21

URL:

Dear All

As discussed in other forum, I am hereby releasing CW 0.69. Please notice, that this version displayed a particular nasty bug that I think I was able to remove. However, to be on the safe side, this version to treated as a intermediate or experimental version. Please test it and report any bugs or crashes that you find. This will allow me to release a stable version faster

You can download the new version on the homepage www.desler.be
