Granite... a firewall application just requires a worthy looking GUI.

Can you elaborate more ? What's wrong in the GUI ?

Quote:

No idea if Roadshow is the default OS 4.1 TCP/IP Stack? Perhaps someone can elaborate...

Yes, Roadshow TCP/IP stack is integrated into the AmigaOS version 4+.

(Edit: Maybe it's not my job to comment...)

@kas1e

I forgot one word from my post and it is priorities. Mesa port have been in their roadmap since the beginning. Priorities. (What is even more important than the important one... Plus lack of resources.) And this was a wish list anyway. I understand people want to play TuxKart with high FPS.
