Better if you worked on MUI OWB there some stability issues, also not all the features are implemented yet (NPAPI).

Report everything on the [bugs.os4depot.net](http://bugs.os4depot.net) / muiowb, if it didn't reported for now.

I will support a bounty for updated and fixed MUI OWB, but not a bounty for VPDF just because its cooler.

Better speed, better usability, better stability = "just because its cooler" ?
