If you have rollback issues please check the versions of the amiupdate toolchain:

6.AmigaOS4:> version full file Update6:System/AmiUpdate/CopyStore

CopyStore 2.6 (25/04/2011)

Part of the AmiUpdate suite

6.AmigaOS4:> version full file Update6:System/AmiUpdate/System_Rollback

System_RollBack 2.2 (24/12/2012)

Part of the AmiUpdate suite

6.AmigaOS4:> version full file Update6:System/AmiUpdate/AmiUpdate

AmiUpdate 2.32 (08/01/2013)

Part of the AmiUpdate suite

6.AmigaOS4:> version full file Update6:Libs/update.library

update.library 53.11 (08/01/2013)

Part of the AmiUpdate suite

There is no issue on my latest beta system or my update6 system.

Checked my installation, same versions, reinstalling the original Update 6 reappeared the old updates, but when I update something old files are not saved, so there are no news Rollbacks, the last one it's still from 5 january 2013 and it's Rollback itself, are there something else that I can check?
