About Jit we want know until I/we try... I don't promise anything on my part here, I will try, If I can't then maybe rachy is interested to help out.

Ilkka Lehtoranta (Itix), it might be that he as simular plans for MorphOS, we will see maybe he does it, its a possibility, if he does it we just grab what he does and rewrite it for AmigaOS4.

Possible; absolutely certain.
