Stated here: <http://forum.hyperion-entertainment.biz/viewtopic.php?f=36&t=2457>

The thread has been locked by SSolie as he states there is no point discussing Warp3D as it is going away.

For me, that means RadeonHD Warp3d is cancelled and that (with my optimistic head on) a replacement 3D system for AmigaOS4 is imminent.

How do the rest of you see things?
