-Will try to see that StuffIt v5.5. problem. Can you try with "non javier" BasiliskII version? 😞

-As I haven't (and won't) touch the emulation code can't do anything.

-Yes is quite damm slow now, but as now is what we have. JIT? (maybe using euae\_jit code? hint, hint) Not an experienced coders, so I'm afraid I can't do such thing.

Can you try to use BasiliskII under X1000 linux?
