@Severin

I probably wasn't clear. The three lines in the window proper are the same as yours,

Match %pdf

Or

Match Name \*.pdf

If I select any of those three lines, "Match," "Or," or "Match Name" show up in the requester below them, But your picture has "Name" with nothing selected. That's what puzzled me.

Now that the manuals come up on DOpus proper, I have been experimenting, but it looks like I have to do a lot of reading. I found a section that tells about all kinds of neat commands, but still haven't found anything that tells how to invoke them, if they don't happen to be in that column of buttons.

It'll be fun. Thanks again.
