Install the following updated libs:

[http://aminet.net/dev/mui/MCC\\_NList-0.119.lha](http://aminet.net/dev/mui/MCC_NList-0.119.lha)

[http://aminet.net/dev/mui/MCC\\_TextEditor-15.45.lha](http://aminet.net/dev/mui/MCC_TextEditor-15.45.lha)

[http://aminet.net/dev/mui/MCC\\_TheBar-26.15.lha](http://aminet.net/dev/mui/MCC_TheBar-26.15.lha)

I don't know that ALL of them are needed, but they were all updated AFTER MUI4 was released and appear to be "MUI4 aware". After updating them, WookieChat seems to have stopped freezing my system.

EDIT: There is also an archive of "contributions" at the MUI4 dev site that appears to contain the same libs. I didn't compare versions, though.
