Just a bump for reminder, someone just reported me a "problem" in SMTube.

It was just because his libQtCore was too old.

Thank you ;)

"When using SMTube (or others Qt programs) take care to have the latest libQtCore.

If your Qt:lib/libQtCore.so is from 2013, it's an old one, take this one :

<http://sourceforge.net/projects/qtami ... bQtCore.so.4.7.0/download>
