ls: cannot access '/usr/local/amiga/adtools-ppc-uwin-20170623-404': No such file or directory  
amidev@AmigaOne:~\$

Perhaps this line in the first post:

```
ln -s /usr/local/amiga/adtools-ppc-cyg64-20170623-404 /usr/local/amiga/adtools
```

should be:

```
ln -s /usr/local/amiga/adtools/ppc-cyg64-20170623-404 /usr/local/amiga/adtools
```

Note the slash between "adtools" and "ppc-cyg64-20170623"

and the same for the UWin part, as follow

this line:

```
sudo ln -s /usr/local/amiga/adtools-ppc-uwin-20170623-404 /usr/local/amiga/adtools
```

should be:

```
sudo ln -s /usr/local/amiga/adtools/ppc-uwin-20170623-404 /usr/local/amiga/adtools
```

Just a guess.

If this is not correct, i will edit the post to avoid confusion
