<https://gcc.gnu.org/onlinedocs/gcc-5.5 ... mmary.html#Option-Summary> -mstrict-align option is available for 3 HW platforms (one of them is PowerPC). It's clear to me that a wrong compiler is used here.

AmigaBlitter: if ppc-amigaos-gcc command cannot be executed (as you write above), or it's somehow linked to the wrong compiler, then you cannot crosscompile.
