```

hi pjs, thanks for your advice, I'm sorry if I did not answer right away.
I would like to try and make odyssey faster.
I would be pleased if possible to have some advice.
If this is possible, thank you!

MickjT
Thanks for the advice, I attach the script directly using Odyssey and not firefox.
This is the first time I reply with Odyssey, I hope it is right to copy and paste.
This is the exact configuration file.
Thanks I hope it's right.
I have not figured out how to attach a file in the forum, it would be easier.
Thanks for all the advice and your work.
