Hello everyone,

as the title says, do we have an execpl replacement?

I know that Chris y. have execvp replacement ([https://github.com/chris-y/git2/blob/m ...
src/common/compat/amiga.c](https://github.com/chris-y/git2/blob/m.../src/common/compat/amiga.c)), but do we have replacements for execpl and other function of unistd?
