nice looking background effects

Thank you :)

@all

Development slowed down a bit in the past couple of months, but still a number of (important) changes have been made:

- * added bossfights;
- * added CHASE cell (the UFOs chase the spaceship for 5 seconds);
- * moved HUD icons column to the left side;
- * touched up graphics;
- * made various improvements/fixes;
- * extended/improved manual.

<https://www.youtube.com/watch?v=AbdfSSvK8lk>

Future:

- * the final boss graphics will be totally different;
- * the background graphics might change as well;
- * there are 47 kB of floppy disk space and 140 kB of RAM left: they will be used to make improvements and/or to add new features.
