Checked : euae from SF page are the same 1:1 which are placed in
<http://os4depot.net/share/emulation/computer/e-uae-amigfx.lha> archive.

With that amigfx version i have 2 issues:

1. When i press in window mode "alt+ctls+s", i have list of screenmodes. How to make some screenmode there be by default, without needs all the time to choice it ?
2. I can't start that vesion in fullscreen at all by default. Only via later pressing on "alt+ctrl+s" and needs to choice from screenmode requester right mode. Maybe config need adaptation for amigfx version..
