Great stuff there... Good work as always... Please consider to upload you great artworks at amiga-look.org as well.

My plans for this year are:

- To work more on amigans.net, to make it better, with better code and features, and support non-CSS browsers as well.
- To update the amiga-look.org to a newer version and add some new features
- To work on my comic viewer for OS4, Comicami, and add more features.

I would also like to work on a simple game I have in mind for Amiga classic computers, if time permits.
