Great!

@samo79

Very, hm, good 😊

@all

I just bumped minigl and mglut to version 2.23, committed everything to the repo, incl. an updated 7z of precompiled binaries.

@kas1e

The very latest temporary mgl.zip from 5 minutes ago on my homepage has the same structure as Hans' old 2015 minigl-archive on os4depot.

Please check it out!
