Yeah, seems perfectly fine to me

Aniway just to say about the archiving thing, just found the ancient 1.5.1 on Aminet and in the readme there is a part of changelog that we may include as reference also in our latest readme .. all that 1.5 and 1.5.1 changelog part perhaps may be usefull as historical reference to have aswell as the old credits related to the old mantainers of the library

See: http://aminet.net/package/dev/c/MiniGL_OS4
