There was some static analyzer fix recently, dunno if it could be related:

[https://github.com/AmigaPorts/SDL/comm ... d0bce56aa1c8f5b25b81124ab](https://github.com/AmigaPorts/SDL/commits/master?commit=d0bce56aa1c8f5b25b81124ab)

So kas1e: you could try to build the master and retest. My testdraw2 binary predates the above fix.
