Selecting a random .mp4 file on my Amiga gives the Dopus 5 'filetype sniffer'. Then button 'edit' gives a:

Guru 80000003,

Crash occured on Filetype.module at address 0x7ffd57c4

Redzone was not damaged

Stackpointer is inside bounds.

Dopus5_92_dev_os4_debug.lha on OS4.1 update1, AmigaOne X1000.
