APPLICATION ERROR #27

You have reached the allowed activity limit of 10 events within the last 3600 seconds; your action has been blocked to avoid spam, please try again later.

Please use the "Back" button in your web browser to return to the previous page. There you can correct whatever problems were identified in this error or select another action. You can also click an option from the menu bar to go directly to a new section.

I'm beginning to hate Mantis!!!

Yeah, sure, i'm a spammer, that's why i registered.

Worse is, that it completely drops everything that has been typed...and no, clicking "Back" on the browser does NOT take you back to the form, it will take you back one MORE step destroying everything one has gathered for a decent issue report...f*ck that shit...

Oh yes, and the reason why i reached that STUPID 10 action maximum was because i set "Monitor" to ON on every bug report i submitted to hopefully circumvent the other STUPID email error on this STUPID site.

...why do i even still bother?
