The good choice (for me) is Keystep 32 keys it has a complete connection (second-hand ~ 70€)

I have Keystep with :

- volca Keys (second-hand ~ 70€)
- volca Sample (second-hand ~ 70€)
- volca FM (second-hand ~ 70€)
- volca bass (second-hand ~ 70€)

I use midi solution quadra thru for connect my 4 volca on keystep and keystep on amiga with usb
