@Raziel

Thanks for the reply

I managed to improve it (I think) even if to be honest, I do some tests.

I disabled all voices in MIME except java and images.

Seems to work well.

I'd like to know if possible, if the options fast seek and h.264 decoding etc. they are important, because I have disabled those too.

@Raziel

@All

Thanks also for any small suggestion.

here the little test:
