Issue with that include should be harmless. I assume it can be the same "big/small letters" issue somewhere (or in the file which do include it, or in the name of file, etc).

There is also that ".exe" part in HOWTO which doesn't apply to Linux.

Are your linux box modern enough? How fast odyssey builds on?

My laptop is some years old, it has an I7 + SSD. I have now timed the build twice and it takes about 38 minutes with -j4.
