Right, i can always add them myself.

I guess it's too much to ask to make the Search engines list at least "sortable"?

So, that one can drag the wanted entry to the top?

Or some change to make an entry "default" so it gets used on a fresh start?

Right now, the first entry will always be used on a fresh start of Odyssey.

Same goes for the "Spoof as..." setting, it always goes back to "Default Setting" on a fresh start...or do i have to save the settings somewhere?
