Probably they did some changes very recently and that changes are no more compatible with our old webkit .. don't know really

Usual stuff, more and more websites want new features.

Btw in beta03 the new variable date "#define DATE __DATE__" is wrong

It show: "Tue 16 2020"

What wrong ? For me it show in the top bar :

Mar 16 2020

In the about box :

Mar 16 2020

But new date still miss the month completely

Probably for you localisation in OS are broken, and Mar translate to some Tue, if that Tue dind't mean Mar in italian.
