@Raziel

Are you using the Catweasel with the old PC and want to install it the new PC?

If so, I would use the Catweasel in the X1000 if I where you and use ADF-Copy on the new PC,

If not, are you using it with the X1000 in a new case without a 3,5" bay?

Just use an 5.25" to 3.5" adapter mounting-kit

I'm using the Catweasel in my X5000 and ADF-Copy on Mac.

Main use of the Catweasel is real SID's in Ian's VICE X64 version, Amiga floppys and as soon i've built an CDTV-A4000 adapter i'm gonna ditch the CDTV keyboard-Keyrah-X5000 solution.
