don't know if you ever had this specific crash

If you remember there already ticket for <http://muidev.de/ticket/401>. You even wrote something in as well.

@K-L

It looks like something weird happen with ffmpeg shared libraries. Most possible it Odyssey trash something which cause that, or it can be something with ffmpeg libs itself.

But sadly if it just "sometime", we then can't normally debug it :(
