The sound now works better is not perfect but now it only occasionally slows down with more applications open.

@all

This is the result of the advice you have given me together over time in this forum.

And also in other forums, I always ask I try to learn.

AmigaOS4.1FE is a nice system I like to use it.

I know the limitations I may have without having a real machine.

But this ignites my old amiga spirit, like when I used and discovered 3.xx many years ago.

I hope to always find some advice. Thanks again. 😊
