[VIDEO PREVIEW #5](#)

Since last time, I improved/fixd a few things, revised greatly the documentation and updated the programs shown in the video. I also prepared the project web page: <https://www.retream.com/ALS> (redirects to <https://retream.itch.io/als>).

Currently I'm continuing to revise the documentation iteratively: when no more corrections are needed, ALS will be released - and I hope to make that happen this week.
