Folks,

In addition to the venerable [Amiga Future](#) and the Poland-based [Amiga User](#), it looks like English-speakers can add another Amiga print magazine to their subscription lists: **Amiga Addict**. I'm not familiar with the publishers -- they're in the UK -- but Issue #1 is scheduled for December and their taking pre-orders now:

They're also on Discord and Twitter, so check them out. I've already purchased a subscription; hopefully others will give the new magazine a try.
