@asymetrix

I agree that Hyperion doing something positive and interacting would be nice...

As for your other points, I wrote a tool to generate libraries from parsing the header files from a library's source code and it's at <http://aminet.net/package/dev/misc/libgen>. As for JSON, I ported jansson, using libgen, and it's at [http://os4depot.net/?function=showfil ... /misc/jansson_library.lha](http://os4depot.net/?function=showfil.../misc/jansson_library.lha)

cheers

billy
