Hi everyone,

Would any of you be interested in a page/site showing highscores for some selected AmigaOS 4 games?

Perhaps a monthly gaming competition?

I see that they do such things on EAB, as well as Amigos Podcast having a high-score challenge for classic on their Discord.

Would be fun if we could do something similar for AmigaOS 4.

We could have a thread here where we could vote for "Game of the Month" for example, and then people submit their scores here or directly on a webpage if that is possible. I can make a section for this on my "Gaming on AmigaOS 4" blog for example. :) Would be a cool project to work.

So, anyone interested in this? I think it would be fun and a good way to promote AmigaOS 4 too.

First suggestions for games from my side:

Dodge These Balls (freeware)

1941 Extreme Deluxe

TechnoballZ

Breakers (Arkanoid)

GemGem

- These are free to download and fun to play. They don't take much time getting into, so the threshold to participate is not high.

Thanks for reading and hope some of you would be interested. :)
