I added such web/score to a shmup port (shooter15 [http://os4depot.net/?function=showfil ...
=game/shmup/shooter15.lha](http://os4depot.net/?function=showfil...=game/shmup/shooter15.lha)).

It uploads (via a tootype) when quitting the game the highscore #1 to the web where I created a simple table with highscores (<http://jabirulo.byethost13.com/hs/shooter15>)
