OS4Depot release should have it:

```
[Amiga]          1345552 4296538 31.3% -lh5- 835c Jul  1 09:19 SDL2/SDK/local/newlib/lib/libSDL2-2.0.so
[Amiga]          1375228 4380404 31.4% -lh5- 8f2c Jul  1 09:11
SDL2/SDK/local/newlib/lib/libSDL2-2.0_debug.so
[Amiga]          3067232 9949802 30.8% -lh5- 4110 Jul  1 09:19 SDL2/SDK/local/newlib/lib/libSDL2.a
[Amiga]          3094564 10040318 30.8% -lh5- e175 Jul  1 09:11
SDL2/SDK/local/newlib/lib/libSDL2_debug.a
```

I suppose you could use a soft link or just replace normal .so temporarily.
