Screenmodes Gone after System Reinstall

Author: : PEB

Date: : 2020/12/25 1:17:22

URL:

In order to have a clean installation for the newly released Update 2 for OS4.1 final, I formatted my SYS partition, reinstalled OS4.1 final, then update 1, and then update 2. Everything seemed to go well, but now I cannot change my screen to 1920x1080 (the option is just not there).

System information:

SAM460, Radeon HD 7700 (I already reinstalled the latest RadeonHD drivers).
