Yes, many many times. Just like I've asked for an email with a link to get a new password many many times. I can't believe it's so hard to deliver an e-mail in 2020.

Plus I'm pretty sure that I haven't even forgotten/changed the password, it's more like my account is "locked" which means a) I can't login with the current password and b) I can't change/get a new password.
