Drat! 😞

Can you ping me the markdown file and I'll send you the debug version of it to get the stack trace? It worked fine with my markdown files here so would be good to nail down what's happening.

The versions of the mui custom classes I've got installed are:

15.Workbench:MUI/Libs/mui> version full file TextEditor.mcc

TextEditor.mcc 15.55 (18/12/2020)

Copyright (C) 2005-2020 TextEditor.mcc Open Source Team [OS4/PPC]

15.Workbench:MUI/Libs/mui> version full file HTMLview.mcc

HTMLview.mcc 13.4 [OS4/PPC] (20/12/2007)

Copyright (C) 2005-2007 HTMLview.mcc Open Source Team

Do they match with your ones?

cheers

billy
