Thanks. I have found all other dependencies on OS4Depot and copied to SDK directory on gcc10 (CygWin64 cross compiler)

```
ppc-amigaos-g++ -athread=native 06_extension_libraries_and_loading_other_image_formats.cpp -o 06_SDL  
-ljpeg -lpng -ltiff -lwebp -lz -ISDL2 -ISDL2_image
```

But I still get the same errors...
